

## Unashamedly Ethical

The organisation, Unashamedly Ethical, was founded by Graham Power, as part of the vision God gave him, based on 2 Chronicles 7:14. The first part of the vision gave effect to the Global Day of Prayer, the second, to do with repentance, is encapsulated in the Unashamedly Ethical campaign and the third part is yet to be revealed, namely, in Graham Power’s words, a Tsunami of a revival.

In a video prepared at the time of the launch of this campaign, Graham describes corruption as a “filthy dirty river” which flows through our society and communities, polluting and enslaving still further, the impoverished of our world. The invitation to those of us, who, because of some moral fibre, would not ever involve ourselves in these activities, is to stand together in this river, until there are sufficient numbers to block its flow.

Attached is a detailed description of how it operates and how to become involved.

A commitment can be made whether or not you want to be a member of the organisation. A member though, is able to demonstrate their resolve by displaying not only a commitment form, but can download the Logo and reflect that logo on business cards, letterheads, electronic signatures, advertising brochures and the like, and even have signs made for vehicles.

Damming a river is so much more effective if the “river is aware of the barrier being erected before it”.

Formal commitments, which can be downloaded and framed are available in a number of different formats:

- Individuals
- Sport persons
- Teachers
- Government organisations
- Political parties
- Businesses
- NGOs.
